

RESOLUTION 2019-16

RESOLUTION AFFIRMING STRATEGIES TO REDUCE HOOD RIVER'S CONTRIBUTION TO GLOBAL WARMING AND TO MITIGATE THE EFFECTS OF THE CLIMATE CRISIS ON THE HEALTH AND WELFARE OF THE CITIZENS OF HOOD RIVER

WHEREAS, in April 2016 world leaders from 175 countries recognized the threat of climate change and the urgent need to combat it by signing the Paris Agreement, agreeing to keep warming “well below 2°C above pre-industrial levels” and to “pursue efforts to limit the temperature increase to 1.5°C”;

WHEREAS, the world is already seeing the impacts of a warmer climate in rising seas and increased and intensifying wildfires, droughts, floods, and other extreme weather events.

WHEREAS, human activities will likely result in global warming of 1.5°C or more above pre-industrial levels¹;

WHEREAS, global warming to 1.5°C above pre-industrial levels will negatively affect human health, livelihoods, food security, water supply, human security, and economic growth, and will result in species loss and extinction¹;

WHEREAS, limiting global warming to 1.5°C will require rapid and far-reaching transitions in the way we manage energy, land use, urban, transportation, and industrial systems¹;

WHEREAS, the City of Hood River is committed to sound municipal environmental policy and the reduction of the City's contribution of greenhouse gasses into the environment;

WHEREAS, by Resolution 2018-2, the City of Hood River affirmed its commitment to the Hood River County Energy Plan's blueprint to improve community resilience, increase energy independence, and increase economic benefits related to energy use in Hood River County while reducing emissions from the burning of fossil fuels;

WHEREAS, the City of Hood River recognizes the need for full community participation and inclusion in the planning and implementation of large-scale change at all levels of government;

NOW BE IT THEREFORE RESOLVED; the City of Hood River recognizes the global climate crisis;

BE IT FURTHER RESOLVED, the City of Hood River re-affirms its support of and participation in the Hood River County Energy Plan;

BE IT FURTHER RESOLVED, the City of Hood River commits to take steps to 1) reduce reliance on fossil fuels in municipal operations and to pursue local policies (e.g., adopt municipal code) and reforms that promote environmental stewardship and sustainability; 2) reduce municipal net greenhouse gas emissions as quickly as possible with a target of reaching net zero by 2035 with appropriate financial and regulatory assistance from Hood River County,

the region, and State and Federal authorities, and 3) initiate efforts to formulate adaptation and resilience strategies in preparation for intensifying climate impacts;

BE IT FURTHER RESOLVED, the City of Hood River commits to reviewing progress and updating implementation strategies annually to allow for adaptive management;

BE IT FURTHER RESOLVED, the City of Hood River commits to partnering to educate our residents about steps that are needed to limit the magnitude and effects of global warming;

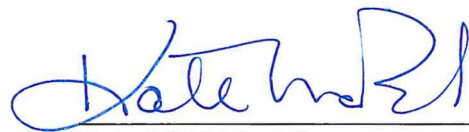

BE IT FURTHER RESOLVED, the City of Hood River underscores the need for community participation, inclusion, and support, in efforts to rapidly reduce greenhouse-gas emissions and the city's climate impact;

BE IT FURTHER RESOLVED, the City of Hood River commits to keeping the concerns of vulnerable communities central to all climate change mitigation planning processes and to inviting and encouraging such communities to actively participate in order to advocate directly for their needs;

BE IT FURTHER RESOLVED, the City of Hood River joins a nation-wide call to limit or reverse climate change at all levels of government;

BE IT FURTHER RESOLVED, the City of Hood River calls on the State of Oregon, the United States of America, and all governments and peoples worldwide to recognize the global climate crisis; and to 1) initiate efforts to reverse global warming by restoring near pre-industrial global average temperatures and greenhouse gas concentrations, 2) discourage the development of new fossil fuel infrastructure, 3) rapidly phase out all fossil fuels and the technologies which rely upon them, 4) end greenhouse gas emissions as quickly as possible, 5) initiate an effort to safely draw down carbon from the atmosphere, 6) transition to regenerative agriculture that aims to capture carbon in soil and aboveground biomassⁱⁱ, and 7) create high-quality, good-paying jobs with comprehensive benefits for those who will be impacted by this transition.

Approved and Effective this 12 day of Nov. 2019.

Kate McBride, Mayor

Attest:

Jenifer Gray, City Recorder

Approved as to form:

Daniel Kearns, City Attorney
